Ghazi Abdul Rasheed Embraces Martyrdom Along With His Mother; Around 1000 Students Massacred; Tyrant Forces Begin Cover Up Operation Amid Fake Bomb Blasts

Islamabad: The Pakistani nation and the Ummah has sunk into grief after the confirmed reports that Ghazi Abdul Rasheed has been martyred by apostate regime forces. According to the reports Ghazi Abdul Rasheed was holed up inside the basement of the Jamia Hafsa Madrassah and was commanding the resistance from there. While wounded due to bullet shot on his leg and the commandoes arrived and asked him to surrender. It is reported that the commandoes were in direct communication with Musharraf at that moment.

On refusal to surrender he was shot at point blank range and he embraced his greatest desire martyrdom. His elderly mother who was also severely wounded due to bullet shots has also attained martyrdom along with his two aunties and many other family members. His body has been moved out and is being taken to undisclosed location.

It is believed that he was martyred during the early phases of operation before noon when he was talking to the media on mobile phone and he said that the commandoes were already approached him and his martyrdom was certain, after which the communication broke off. But to give the fake impression of fierce resistance this news was revealed in the evening. Moments before his martyrdom some media persons received his mobile SMS that only three of his comrades were left putting resistance.

The Hidden Massacre

According to the reports there is deliberate silence on the regime's side on the fate of hundred of students still left inside the complex including girls, women and men. According to the reports from anonymous sources citing volunteers of a relief agency who have a had a chance to go inside the complex, there are so many bodies of martyrs in rooms of the Madrassah that it is hard to walk even. Some sources put the figure around 1000 that includes daughters and sons of Islam slaughtered in cold blood.

But there are certain reports from sources that over 800 coffins have been asked for by the security forces for the dead bodies. It reveals the worst massacre in history of the nation committed by the apostate state machinery against innocent believers whose only crime was that they demanded Islamic Law. Their bodies are being moved out and sent to cold storages and several water tankers have been moved into the area to wash the scene of any evidence of massacre before opening up the area for the media scrutiny tomorrow.

Operation “Cover Up” Of Fake Claims

There are reports from anonymous sources that many claims by the apostate regime about the presence of huge cache of weapons and the foreign Mujahideen is fabricated. Despite repeated requests by Ghazi Abdul Rasheed earlier yesterday to let the media in the complex to prove that no arms storage or foreign Mujahideen were inside, no media team was allowed by the apostate forces to move to the location.

He also said repeatedly that his comrades only possessed a few licensed Kalashnikovs and no heavy weapons were inside. Mr. Ghazi had said if his students had sophisticated weapons then they would have easily targeted the apostate forces bunkers surrounding the complex. He had claimed that after his martyrdom the regime’s forces would stuff the weapons inside themselves to prove their false claims. This is exactly what is going on this night.

The ruthless operation is already over but it is being falsely reported to mainstream media that it is still continuing and some students are still putting up resistance. The fact is that the explosions are being used as a cover for carryin out cover up operations to stuff heavy weapons inside the compound to prove to the media on Wednesday morning that the students had huge stockpiles of weapons and they were heavily armed.

Similarly the claims of the presence of foreign Mujahideen have been completely openly rejected by the Ulema mediation team. This fact is gaining strength due to failure of the regime to produce the dead body of any foreign Mujahid. Fears are expressed by the Ulema for the lives of foreign Mujahideen held by the regime in the prisons are in danger as they would be martyred and late presented to media as the evidence. According to reports the operation was deliberately prolonged to 14 hours to give the impression of stiff resistance while the operation is assumed to have been almost complete by the noon.

Backlash Begins

The situation in many areas of Pakistan has become very tense after the Lal Mosque Massacre as there are reports of bomb attacks on police and apostate forces in the frontier province and strong protests in Battagram and Swat area where the offices of international NGOs and government buildings are being set on fire and main Karakorum highway that links Pakistan to China has been blocked. After statements of support for operation by the leader of secular and liberal Pakistan Peoples Party, Benazir Bhutto, there is dangerous smell of tension between liberal and secular forces in the country. While the Islamic forces are in the state of extreme shock, humiliation, frustration and anger, the liberal elements have welcomed the massacre. This is the defining moment for Pakistan. The War that was ignited by US across the western border has raged to the very heart of Pakistani society.

The Islamic political parties who had been completely ineffective during the week long crisis have announced three days of national mourning. They had been criticized by Ghazi Abdul Rasheed before his martyrdom for not taking clear and strong stance and their failure to recognize and support the true cause. The Islamic politicians seem ready to launch their election campaign in the name of the same martyrs whom they had abandoned in need.
